Sanding Band

White Zebra Sanding bands

Material: Aluminum Oxide & Japan NCA

Color: White

Size: 6.35x12.7mm

Grit: #80/#100/#120/#150/#180/#240

Advantage:

- Imported raw materials from Japan
- Non-toxic environmental protection transparent adhesive
- Excellent Heat Dissipation
- No clogging

Brown Sanding Bands

Material: Aluminum Oxide

Color: Brown

Size: 6.35x12.7mm

Grit: #80/#150/#240

Advantage:

- Domestic alumina material
- Low price and high cost performance

Black Sanding bands

Material: Silicon Oxide & Japan NCA

Color: Black

Size: 6.35x12.7mm

Grit: #80/#100/#120/#150/#180/#240

Advantage:

- High cost performance
- Imported raw materials from Japan
- Non-toxic environmental protection transparent adhesive
- Excellent Heat Dissipation
- No clogging

Green sanding band

Material: Aluminum Oxide & USA Norton

Color: Green

Size: 6.35x12.7mm

Grit: #80/#120/#150/#180

Advantage:

- It has high grinding force to prevent blockage
- It is stable and does not easily contaminate nails
- It is soft and fits the nails. Easy to operate
- Imported alumina material

CHIYAN sanding band main advantages

1. Accurate Size (6.35mm*12.7mm&6.5mm*12.7mm) .
2. Sanding Surface is smooth. The glue is equally distributed. No extra glue spilled. No opening.
3. The cut is smooth and has no burrs. It is easy to polish the edges of the nails and easy to handle.
4. Two-component glue, firmly bonded.
5. Non-toxic, eco-friendly, transparent glue.
6. Optional grit from coarse to fine: 40#, 60#, 80#, 100#, 120#, 150#, 180#, 240#, 320#, 400#
7. High quality imported abrasive cloth material.
8. The abrasive material could be customized (MOQ 1000 meters).
9. Provide OEM&ODM.
10. 200,000pcs daily output assures a fast delivery.
11. Free Samples. Support product return.
12. Our workers have 15 years of production experience. We have a good control of the products quality.
13. Provide free package designing and technical assistance.
14. Defect Rate is lower than 1%.
